# ABOUT SANKOM®

**SANKOM®** was founded in 2003 in Switzerland and specializes in the development of health and weight management programs.

The **SANKOM®** programs are based on advanced scientific concepts and are supported by innovative high quality consumer goods. Each of the cutting-edge products is protected internationally by utility and design patents, trademarks and copyrights.

A team of experienced medical doctors and prominent fashion designers lead the **SANKOM®** functional wear division, creating products that have both health benefits and are aesthetically flattering on the body.

**SANKOM®** holds a unique portfolio of international patents that are successfully marketed worldwide and have won a series of prestigious international awards.

The latest groundbreaking inventions – **SANKOM®** Patent Bra (Multivectoral Posture Brassiere) and **SANKOM®** Patent Shaper (Restorative Body Balancing Shapewear) – have received global recognition and tremendous success among consumers as well as within the professional medical community.

**SANKOM®** has daughter companies/representations offices in 5 continents and successfully distributed its innovative patented products to over 95 countries worldwide.

**DR. SERGE MAZOURIK, CHAIRMAN  
MS. OKSANA MAZOURIK, CEO**

# SANKOM®

## INTERLECTUAL PROPERTY

### PATENT BRA

CLASS 1 MEDICAL DEVICE

The first bra in history to use the natural weight of the breasts to pull the shoulders backwards & straighten the back.

- ✓ Improves Posture
- ✓ Reduces Upper Back
- ✓ PainSupport & Lift

### PATENT SHAPER

CLASS 1 MEDICAL DEVICE

The **SANKOM®** Patent Shaper has 6 different levels of anatomical compression.

- ✓ Improves Posture
- ✓ Reduces Lower Back Pain
- ✓ Enhances Figure

### PATENT SOCKS

CLASS 1 MEDICAL DEVICE

The **SANKOM®** socks are the only socks in the world that use a patented targeted active compression.

- ✓ Clinically proven to give immediate relief
- ✓ Improve blood circulation
- ✓ Instantly lighter legs

# SANKOM® PATENT BRA

U.S.A. PATENT 9265288, WO PATENT app. 089762 A1, PCT PATENT app. CN2012/086384

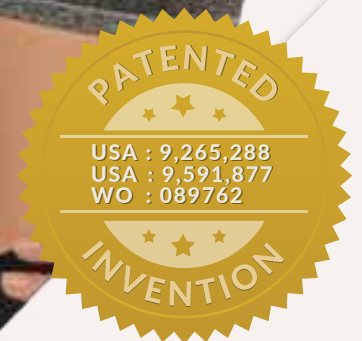

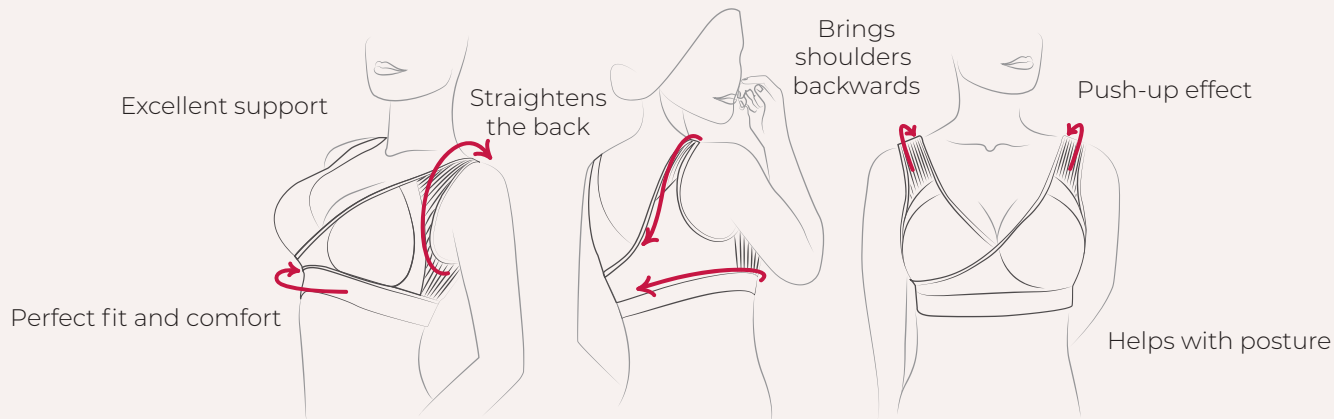

The Multivectoral Posture Brassiere was invented by Dr. Serge Mazourik, MD, PhD, Founder and Chairman of the Board of **SANKOM®**. It provides the most ergonomically innovative, and breakthrough solution for breast support in the past 127 years, since Mrs. Christine Hardt patented the first modern brassiere in 1889.

Further development of this revolutionary invention was done by Ms. Oksana Mazourik, MBA, BFM, BCoMS, CEO and Creative Director of **SANKOM®**.

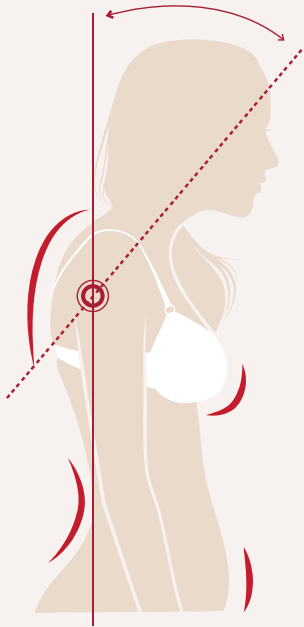

During 3.5 years, Oksana has tested the bras on over 2000 women - in order to create a bra that gives maximum comfort and feminine appeal. As a result, the most physiologically comfortable and ergonomical brassiere in the world - **SANKOM®** Patent Bra was born..

## WHAT MAKES THE SANKOM® PATENT BRA SO UNIQUE?

The SANKOM® Patent Bra is the first bra in history which uses the natural weight of the breasts to pull the shoulders backwards and straighten the back, while simultaneously giving an amazing push-up effect. Thereby, it provides a harmonic combination of aesthetic and health benefits.

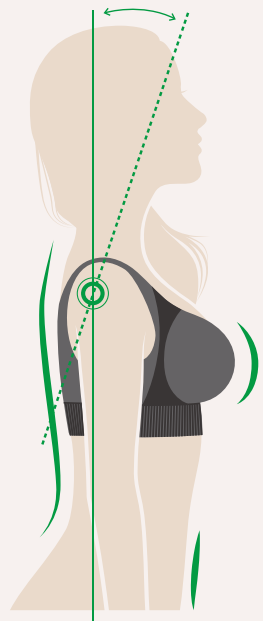

# SANKOM® PATENT BRA VS ORDINARY BRA

## ORDINARY BRA :

ordinary bras put the weight of the breasts on the shoulder girdle, thereby increasing the load of the spine. this creates an incorrect posture leading to symptoms of back pain and general discomfort.

Even minor pressure on the shoulder girdle and spine over a long period of time can cause changes in women's health.

## SANKOM® PATENT BRA :

- ✓ PREVENTS THE STOOP DEVELOPMENT
- ✓ ELIMINATES THE BACK PAIN
- ✓ EFFECTIVELY SUPPORTS AND VISUALLY AUGMENTS THE BREASTS
- ✓ PREVENTS THE FORMATION OF A DOUBLE CHIN
- ✓ CREATES THE EFFECT OF A FLATTER STOMACH
- ✓ PROVIDES CONVENIENCE AND COMFORT IN MOTION
- ✓ EASY TO PUT ON AND LIGHT WEIGHTED

# SANKOM® PATENT SHAPER

U.S.A. PATENT app. 13995811, WO PATENT app. 049961A1 & 050006A1, PCT PATENT app. CN2011/080513

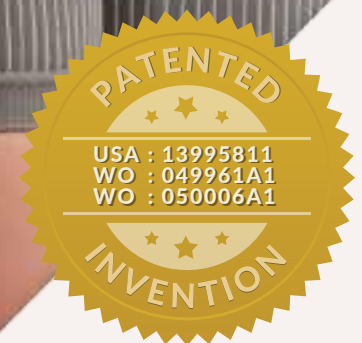

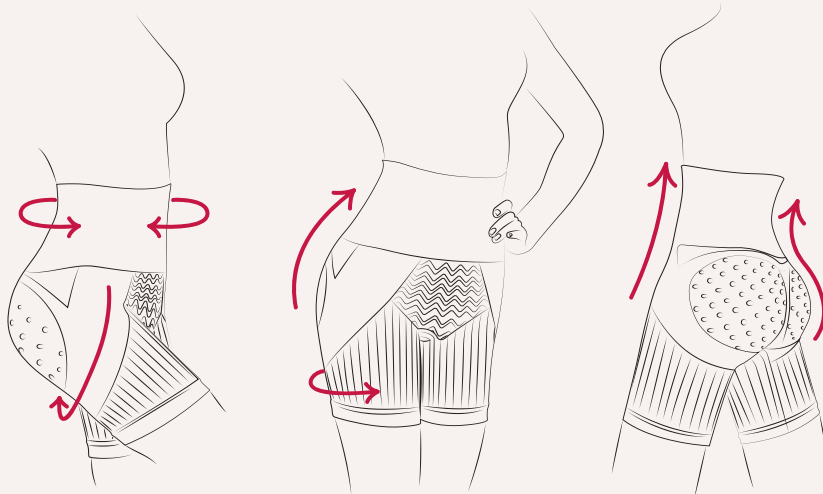

The Restorative Body Balancing Shapewear was invented and developed by the **SANKOM®** team during 2008-2016.

It is aimed to restore the biomechanical balance of the human body by using different levels of diagonal, flat and point compressions, which correspond to anatomical zones of the lower half of the body.

This patented ergonomical and physiological approach for shapewear opened a new era in the history of functional wear, as for the first time ever, there is a synergy between health and beauty in compression wear.

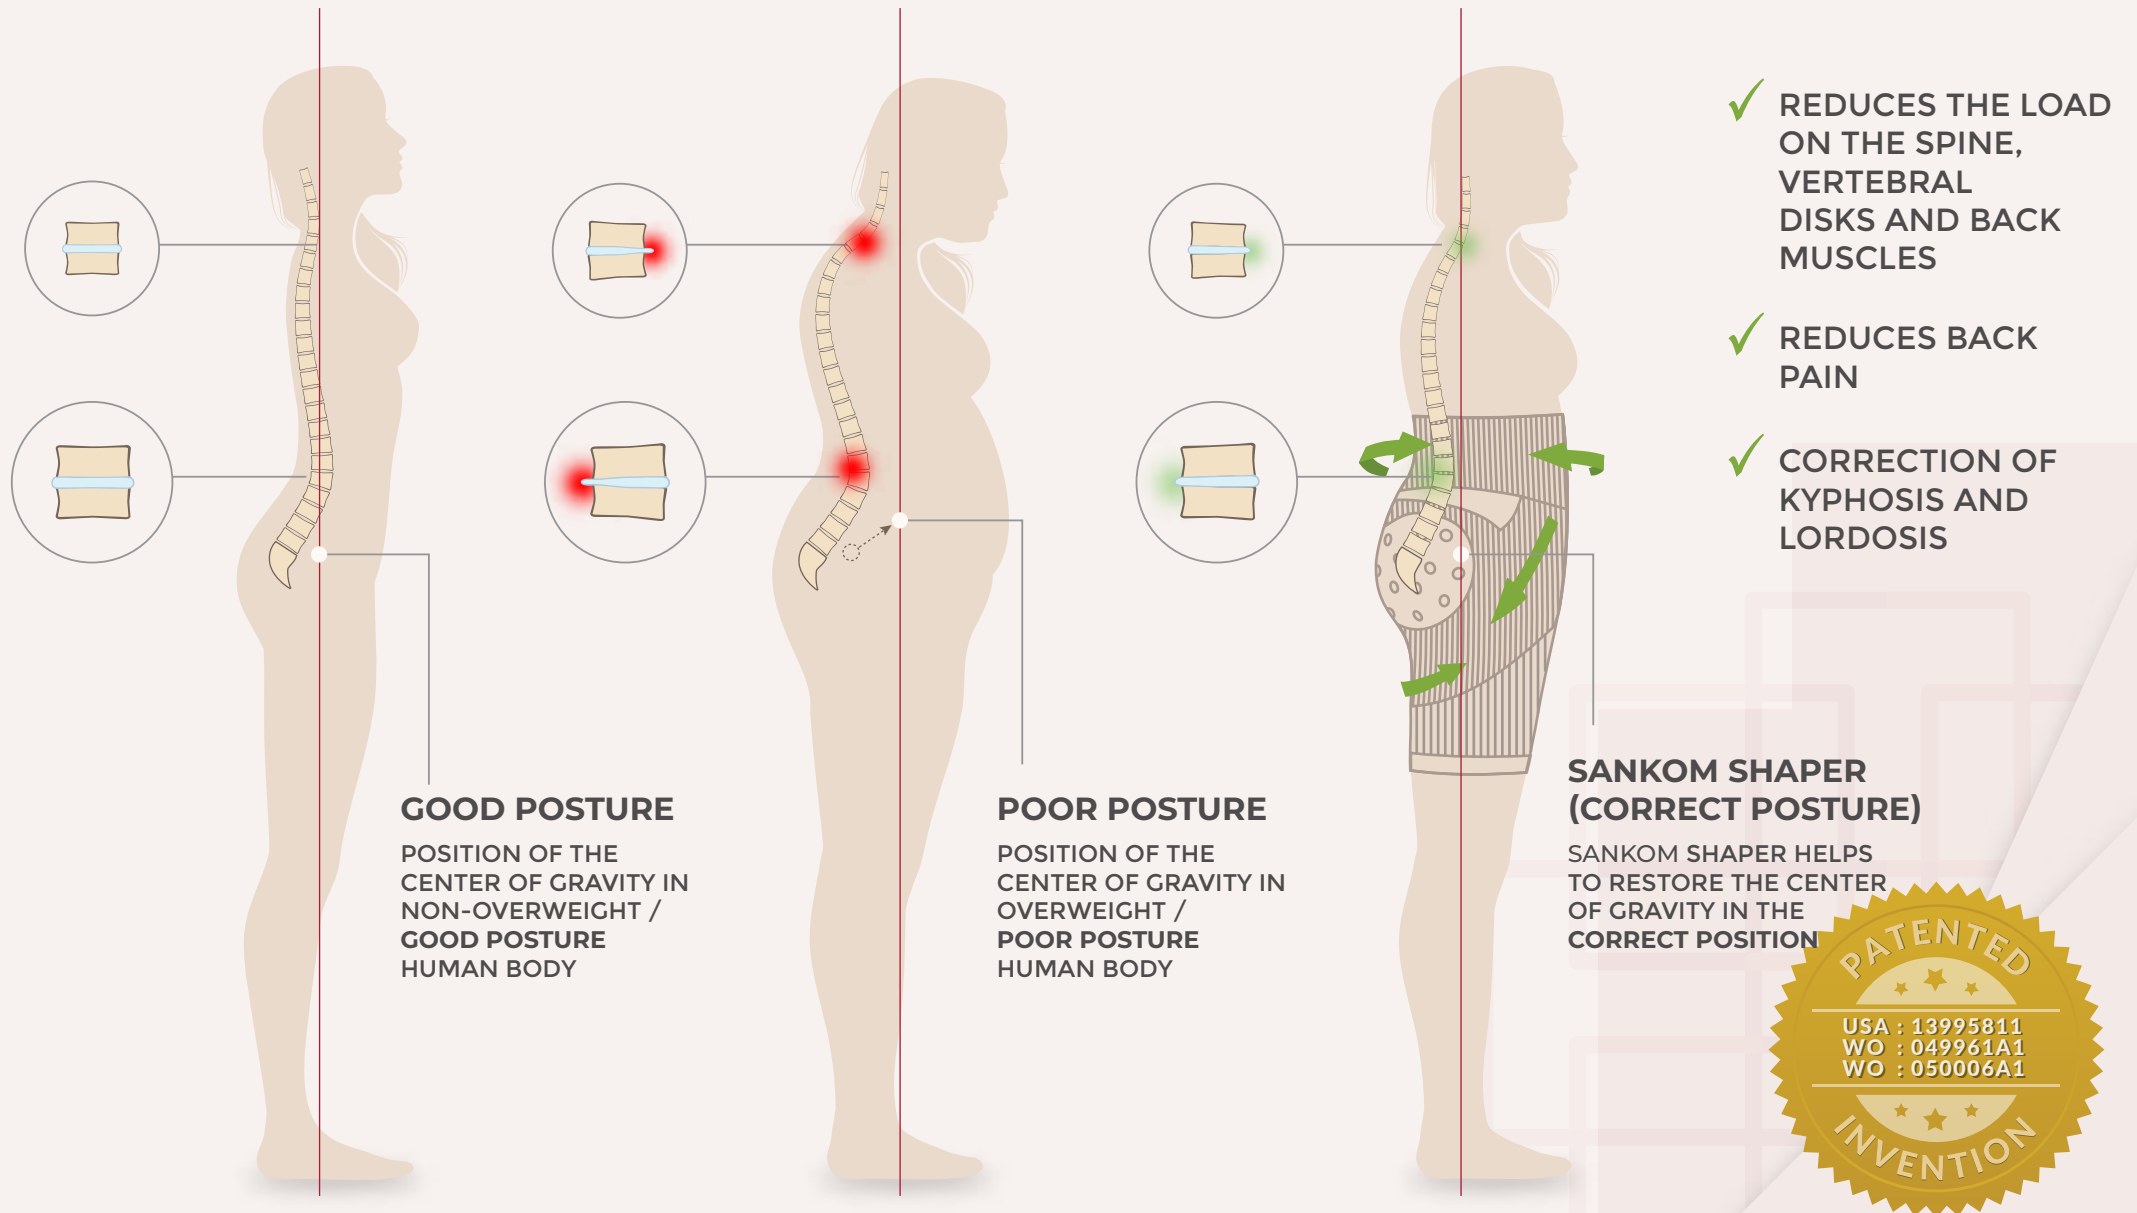

## WHAT MAKES THE SANKOM® PATENT SHAPER SO UNIQUE?

SANKOM® Patent Shaper helps to restore the body biomechanical balance using a patented diagonal compression (instead of circular compression which is used in all ordinary shapers in the world).

# SANKOM® PATENT SOCKS

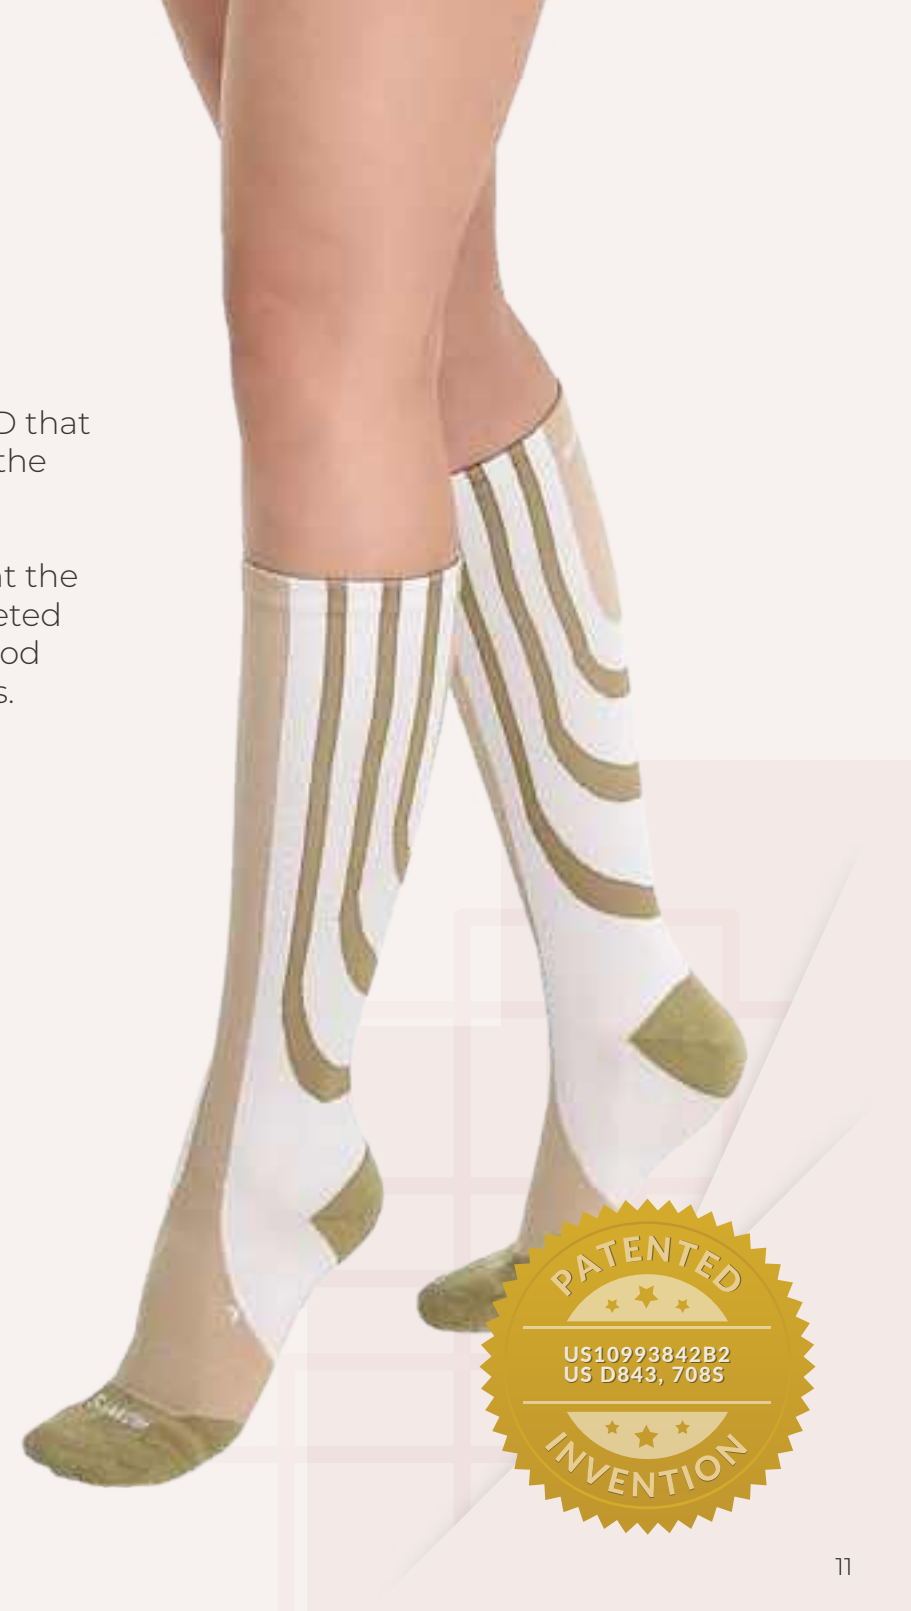

U.S.A. PATENT app. No15/179,598

The **SANKOM®** Patent Socks are the FIRST COMPRESSION SOCKS IN THE WORLD that use the unique innovative concept of active anatomically targeted compression, the **SANKOM®** Patent Compression.

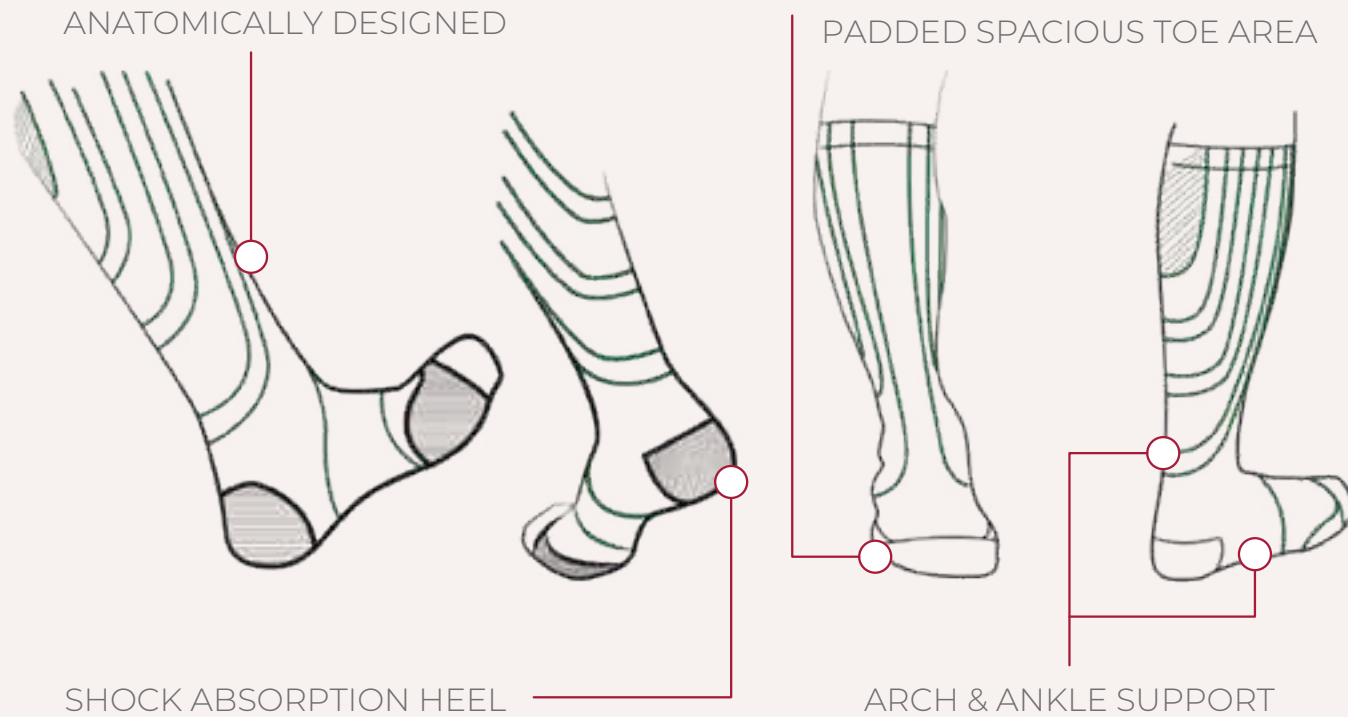

**SANKOM®** Patent Socks eliminate the cause of venous blood stagnation and fight the negative consequences of poor blood circulation in the legs. Through active targeted step-by-step compression, the **SANKOM®** Patent Socks help evacuate venous blood upwards and decrease excess intravenous blood pressure in the lower extremities.

**SANKOM®** PATENT ACTIVE COMPRESSION SOCKS  
HAVE 4 GRADUAL COMPRESSION LINES,  
THAT WHEN PULLED ONE AFTER ANOTHER HELP IMPROVE BLOOD CIRCULATION

# DEVELOPED AND DESIGNED IN SWITZERLAND

**CLASS 1  
MEDICAL  
DEVICE**

**SWISS MEDICAL DEVICE CLASS I: SANKOM® Active Compression Socks** are clinically proven to improve blood circulation, provide instant relief, reduce swelling, heaviness and varicose veins. With its unique Swiss Patented Technology, **SANKOM® Active Compression Socks** supports the arch of the foot, the ankle and calf muscle. It is suitable for both men and women.

**SANKOM® Active Compression Socks** are comfortable and breathable with a spacious toe area and padded shock absorption heels, making them ideal for travel, everyday wear and for the long days that leave your legs achy.
